Subject: Guam - International Publications

Lee mentioned to me that you had some comments on the issue raised in my recent note to David Davies, but because of the demands of the customs matter I was unable to follow up from Malaysia. I have now seen David's note of May 27, which states the general position but does not address the question of PM policy, if any, in this area. Please let me know if you can add anything to what David has said. I expect to discuss the matter with Leo Burnett next week.

Best regards,

Roger
